

Lumen Learning Course List

Lumen Learning uses [open educational resources \(OER\)](#) to provide affordable course materials that improve learning and replace expensive textbooks in high-enrollment college courses. Adding timely updates, learning design, and technical support to OER, Lumen makes the transition to open content simple, reliable and effective for instructors and students.

Lumen courses curate the best available OER aligned with learning outcomes. Typical content includes text, video, interactives, sample assignments and assessments, all integrating seamlessly into any major learning management system (LMS). Lumen offers different types of courseware packages, in addition to free courses available in our [public catalog](#). Featured offerings for Follett campuses include:

Waymaker Personalized Learning Courses

Engineered for learning, these courses help students exercise their metacognitive muscles with personalized study plans and interactive activities to practice and apply learning. A simple-to-use faculty dashboard and messaging tools strengthen student-teacher relationships and save time helping instructors identify and reach struggling students.

Lumen Online Homework Manager (OHM) courses

A flexible system for quantitative subjects that provides algorithmically-generated practice problems, instructional videos, machine grading, and immediate feedback for students. Courses may be taught using Lumen OHM with static or editable text options. OHM problem sets enrich some Waymaker courses as well.
